

## ACTIVITY 9: Problem solving strategies

Think about a problem or a problem you encounter this week and use the step-by-step approach to come up with different solutions to solve the problem. Use the example above to help you get through this worksheet.

**Step 1: Describe and clarify the problem**

--

**Step 2: Come up with different solutions**

--

**Step 3: List the pros and cons of each solution**

--

**Step 4: Pick a solution and outline the steps to implement that solution**

--

**Step 5: Evaluate the solution. Was it successful? What could you have done differently?**

--
